PEIA Policy for COVID-19 3/10/2020 (Latest update 4/3/2020)

Coronavirus 2019 (COVID-19) is a respiratory illness caused by a novel coronavirus designated SARS-CoV-2. The outbreak of COVID-19 originated in Wuhan City, Hubei Province, China. With thousands of confirmed cases being reported in a rapidly growing number of countries worldwide and the number of national cases growing, the West Virginia Public Employees Insurance Agency (PEIA) is establishing this policy to support the health and safety of our members.

Diagnosis and Testing

Effective with date of service 2/04/2020 and after, PEIA will cover COVID-19 testing at a network provider, at 100% of the contracted allowance, for members who meet CDC guidelines for testing. This will apply to PEIA PPB plans A, B, C and D. This means the members will have no deductible or coinsurance for the actual test. Deductibles, copayments, and coinsurance will also be waived for any physician or facility services incurred in the process of being tested.

Treatment of any members, who test positive for the virus, will be covered at normal benefit levels.

Temporary Expansion of Telemedicine Benefit

For the next 60 days, PEIA is going to allow office visits, psychotherapy, and other medical services which does not require physical contact, to be performed directly between the providers and patients via video conference or telephonically.

PEIA is waiving the requirement of an Originating Site for these services.

Services should be billed with a place of service code 2 and PEIA would prefer the CPT codes billed for telemedicine service to be billed with modifier GT or 95.

This real time interaction must be between the licensed provider and the patient. Communication with office staff cannot be billed under an Evaluation and Management code.

This is in addition to our current Telehealth Policy which can be found at www.PEIA.wv.gov

Pre-Certification, Preauthorization and Prior Approvals

Because many elective procedures are being delayed, PEIA is going to automatically expand the time frame for any current approvals to 12/31/2020. This means if a current pre-certification, preauthorization or prior approval is in place for a procedure scheduled for April 1, 2020 and that procedure is delayed, there is no need to call to reauthorize that procedure. The current authorization will still be valid.

Increase in Reimbursement

In an attempt to assist West Virginia hospitals to cope with the challenges faced when dealing with the COVID-19 crisis, PEIA PPB plan will follow the CMS policy of allowing an additional 20%, on DRG claims, for treatment of COVID-19. This will be in effect for any admissions with a discharge date on or after April 1, 2020.

The chart below is from the CMS policy detailing the diagnosis code and DRGs recognized for this additional allowance.

Diagnosis Code	Description	CC	MDC	MS-DRG
U07.1	COVID-19	MCC	04	177,178,179
			15	791,793
			25	974,975,976

Early Refills for Medications

During the current State of Emergency, PEIA is allowing early refills of medications. A pharmacy may contact the CVS Caremark Help Desk at 1-800-364-6331 or the member may contact CVS Caremark at 1-844-260-5894, to request an early refill.

If pharmacies are experiencing restricted orders from their wholesalers and are unable to fill ninety-day supplies of maintenance medications, they may contact the CVS Caremark Help Desk to request an override to allow a thirty-day supply.

Alternate Care Sites

PEIA will cover testing, care, and/or treatment provided by and/or at an officially designated Alternate Care Site (ACS). An ACS is defined as a medical facility designated and approved by the State Health authority and/or the Authority Having Jurisdiction.

Other Important Information

The CDC is periodically updating who should be tested. Please refer to the following link for the latest updates. <https://www.cdc.gov/coronavirus/2019-nCoV/hcp/clinical-criteria.html>

If you believe you have been exposed to or have symptoms consistent with COVID-19, please call your local health department, primary care provider or iSelectMD for further instructions.

West Virginia has set up a hotline for its citizens and providers for up to date and accurate information regarding COVID-19. The hotline is toll-free and operators are available 24/7 at 1-800-887-4304.
